

# EAST SIDE MOVERS

Professional Movers - Family Owned & Operated Since 1945

## A Professional Moving & Warehousing Organization

**ESM Van & Storage** was established in 1945 to provide moving services within the tri-state area. Today, our affiliates have expanded our capabilities worldwide. As a full service company, **ESM** provides the following:

- Office & Industrial Relocations
- Record Storage, Retrieval & Shredding
- New Furniture Distribution & Installation
- Household & International Relocations
- Office & Household Furniture Storage
- Liquidation Services

### OFFICE RELOCATIONS

ESM Van & Storage will facilitate your office relocation with a minimum of disruption and downtime. Our skilled project managers are

proactive and carefully plan for every move anticipating problems before the move takes place.

An in-depth physical survey is prepared for the customer by visiting both sites and determining location of elevators and loading docks, and availability of entrances. At point of origin a tally load sheet is filled out listing all furniture, file cabinets, computers, stored records, artwork and employee personal effects. From this inventory an accurate and itemized moving estimate is prepared for the customer. All our estimates are guaranteed without hidden or additional charges after the job.

Several days before each move our project managers will study and mark your floor plans, and tag your furniture, computers, file cabinets, artwork and the corresponding areas at destination. This assures the proper placement of furnishings the day of the move.

On the moving day our staff will put masonite on the floors to protect carpeting and tile, and coroflex cardboard to protect doorways and walls. Furniture is blanketed and shrink wrapped, computers are bubble wrapped and stored in carpeted computer carts. keyboards, mice and cabling are stored in special zip lock bags and travel with each computer. Transition is now complete.

## HOUSEHOLD MOVING

At ESM our management and labor force brings an average of twenty years of experience to the moving public. This assures that your move will be cost-effective and on-time!

Our truck fleet is equipped to handle the most delicate china, stemware, computers, antiques and paintings. We have a large inventory of necessary equipment and packing supplies to move you carefully and efficiently.

Our equipment is part of our cost proposal to you...no hidden charges or add-ons - just an honest estimate you can trust and live with!

We are experienced in handling of fine furniture and antiques, with a minimum of 5 years of experience per man. On the job, our men are the most critical factor in building our success.

We have a staff of full-time professional packers, craters, movers, supervisors, and office support staff to maintain control of operations for each and every relocation.

## WAREHOUSING

ESM's storage facilities for containerized furniture and record storage are climate controlled and secured by state-of-the-art Central Station alarm and sprinkler systems.

Furniture for storage is blanketed and shrink wrapped for placement in large wooden containers, then stacked and stored for future access.

## RECORD STORAGE, SHREDDING & FURNITURE LIQUIDATION

ESM can make your business more productive by freeing up valuable office space. Records are bar-coded in our computer system for easy access & retrieval.

Document shredding is provided using locked consoles placed in offices, with monthly onsite pickup provided for archive destruction at our facility.

Units hold up to 60 lbs. of paper ready for shredding. Consoles provide easy protection of financial, medical and personnel data, helping to fight identity theft!

Access to our facilities is easy in the New York Metropolitan area. ESM has vehicles daily in Manhattan, Long Island, New Jersey, and Connecticut.

## HOSPITALITY SERVICES

ESM Van & Storage works closely with hotel chains during new construction, interior renovations and upgrades. Project managers rely on us for moving and delivering furniture, wall coverings, tile, and rolls of carpeting to the jobsite.

Our men are skilled at installing both furniture and furnishings. We work closely with hotel management and contractors to make re-stacking projects deliver on schedule and on budget.

From our warehouses we receive, unpack, and safely store container shipments of case goods, for later delivery to the construction site. ESM also liquidates old furniture from the site and separates the material at our warehouse for recycling.

## OFFICES & WAREHOUSES

ESM owns and operates a central office and warehouse complex in Mt. Vernon, NY, a sales office in NYC, and additional warehouses in Yonkers, NY, and Bridgeport, CT. All warehouse facilities are ideal for receiving furniture, storage, records retention and distribution of new furniture and systems furniture.

We invite you to visit our warehouse facilities and see the interior layouts, security, and high standards of cleanliness and maintenance.
